

Syncfo 4 in 1 Coffee Analyzer

Long-period operating
No warm up needed

Features

- 1.Touchscreen, Operation Easily
- 2.Easy carrying, Easy storage, Customize the flight case
- 3.Power saving mode, extend battery life
- 4.Precise measurement, same as Agtron measurements using "Gourmet" sale
- 5.World first multiple functions coffee analyzer
- 6.No warm up needed. Results in 3 seconds

Product Function

- 1.Multiple function (Moisture/Density/Color score/Weight)
- 2.Near-infrared Ray analyzing technic
- 3.Auto-Calibration function
- 4.Wide range usage for roasters, trading companies and coffee farmers, specially made for coffee professional
- 6.Accuracy: Moisture $\pm 0.1\%$, Density ± 1 g/L, Color ± 0.1 Ag, Digital Scale ± 0.1 gm
- 7.Testing Objects:
STD Version: Green Coffee Beans, Roasted Coffee Beans, Ground Coffee
PRO Version: Dry Cherry, Parchment, Green Coffee Beans, Roasted Coffee Beans, Ground Coffee

Specification	
Screen size	2.8" , 320*240, TFT color screen
Light	NIR LED-light
Sensor	NIR LED-light Sensor Chip
Detecting Range	65 cm ²
Material	Industrial Plastic+Aluminum alloy
Memory Capacity	100 testing records
Operating Temperature	0-40°C
Storage Temperature	-10~60°C
Power Supply	DC 5V 2.1A
